

TH627

Telehandler

Maneuverable and effective.

If stacking heights of 6 meters are involved, the telehandler TH627 is the ideal solution. With a payload of 2.7 metric tonnes, it remains stable even during extreme loading processes. The numerous option variants make the TH627 a real all-rounder on the construction site. With two cabin variants, the vehicle offers a low overall height or, with the high cabin, an even better all-round visibility.

Highlights

- Choice between two cab heights.
- All switches assigned to the same category are the same color.
- Good accessibility for daily maintenance.

Technical Data

Hydraulic

Operating pressure	3,770.0 psi
Flow rate max.	23.5 gal/mi

Mechanical - Output Details

Travel speed	12.4 m/H
Travel speed (Option)	18.6 m/H

Mechanical Details

Length	173.2 "
--------	---------

Width	77.2 "
Height	82.9 "
Payload max. LSP 500mm	5,952.5 lb
Payload lift max.	3,968.3 lb
Lift max.	225.6 "

Engine

Maximum torque	222.2 lb/ft
