Weight	3,836 lbs
Horsepower	14.5 hp
Digging Depth	7'7"

No Space. No Problem.

The ViO17-A goes almost anywhere and works efficiently in tight, narrow areas. Our most compact zero tail swing mini excavator goes where larger excavators can't, and works easily against walls or buildings. But its small stature doesn't sacrifice power. The 14.5-hp final Tier 4 diesel engine provides the power you need for the toughest jobs, with dramatic lifting capacity and bucket digging force that belies its size. Plus Yanmar's unique, sturdy variable undercarriage provides flexibility, stability and safety.

INNOVATIVE FEATURES

True Zero Tail Swing

Take on more jobs in tighter spaces. With true zero tail swing technology, no part of the ViO17-A housing extends beyond the tracks, so you can work efficiently almost anywhere, with less damage to both the machine and the worksite. Plus, you enjoy better visibility for increased performance and safety.

Unbeatable Track And Undercarriage Flexibility

Tracks hydraulically retract to 37 inches for traveling through narrow passageways, and expand to 49 inches for greater stability while digging. Plus, the folding blade provides even more flexibility.

Pilot Joystick Controls

Joystick pilot controls with control pattern change are standard equipment on the ViO17-A. The easy-to-access valve lets you switch from excavator to backhoe control in just seconds. The wrist control lever and ergonomically designed armrest provide comfortable, easy operation, designed to significantly reduce fatigue on long, tough workdays.
