

DT08

Track dumper

The rental center professional

With its 1764 payload and only 79 cm machine width, the DT08 is the perfect fit for rental fleets. The low-maintenance and intuitive-to-operate hydrostatic drive system allows simple operation, even for inexperienced operators. At the same time, it is gentle on the subbase due to its wide tracks and the perfectly balanced center of gravity with low ground pressure. The sturdy travel gear design ensures durability and low wear.

Highlights

- Hydrostatic drive
